

- ENJOY FOR 3 TO 4 WEEKS
- REMOVES FRIZZ
- TAMES VOLUME
- REJUVENATE HAIR

## Kera Express

Kera Express is an excellent treatment for all types of hair; it will reconstitute the proteins in the hair and increase brightness and softness to the touch. This treatment contains cysteines and wheat proteins that activate on all types of hair. It will prolong the KeraSpa smoothing treatment or other smoothing treatments.

It cleans conditions, replenishes proteins and adds shine to the hair. It also reduces the volume and frizz in the hair in a single treatment. Kera Express is a 5 in 1 product that lasts 3 to 4 weeks.

## Kera Protect Express

Kera Protect Express is a leave-in spray conditioner formulated with keratin and silk proteins,

- PROTECTIVE SHIELD
- FACILITATES THE BRUSHING
- ACCELERATES BLOW DRYING
- REMOVES FRIZZ
- HEAT PROTECTOR

Must be applied after Kera Express Step 1.

### Step by Step

**NOTE : Do not shampoo hair before treatment !**

Wet the hair thoroughly at the shampoo station.

Measure 0.18 oz. of **Kera Express Step 1** in your hands and rub together in order to warm up the product.

As you warm up the product, you will create fibers in your hands.

Apply the product on the length of the hair **ONLY**. Massage the hair in the direction of the cuticles.

**DO NOT APPLY** product directly on the scalp.

This action will create suds. Remove the suds and apply to the scalp. Massage the hair the same way you would shampoo.

Rinse and repeat. Always make 2 applications to obtain best results.

Towels dry the hair and spray **Kera Protect Express** all through the hair, especially on the middle length and ends.

Comb the **Kera Protect Express** through the hair, style and finish with a flat iron.
